CAREER SUMMARY

Motivated and detail-oriented Backend Developer currently pursuing an Integrated MCA (5th Year, 9th Semester) at Raja Balwant Singh Management and Technical Campus, Agra. Proficient in building scalable web applications using Python, Node.js, and modern frontend technologies such as React.js and Tailwind CSS. Hands-on experience through multiple self-initiated projects and freelance engagements, demonstrating strong problem-solving skills and a commitment to delivering high-quality, efficient code. Passionate about creating robust backend systems and seamlessly integrating them with intuitive user interfaces.

EXPERTISE

Backend Development | RESTful API Design | Database Management | Frontend Development | UI/UX Implementation | Freelance Project Delivery | Version Control (Git/GitHub) | Agile Development | Creative Design (Adobe Suite) | Full-Stack Integration

TECHNICAL SKILLS

Python | Node.js | React.js | JavaScript | HTML | CSS | Tailwind CSS | MongoDB | Firebase | GitHub | Adobe Illustrator | Adobe Photoshop

PROFESSIONAL EXPERIENCE

FREELANCE BACKEND DEVELOPER | Self-Employed | Agra, UP

2022 – Present

Delivered end-to-end web development solutions for clients, handling backend architecture, frontend implementation, and deployment.

- Designed and developed RESTful APIs using Node.js and Python, integrating with MongoDB and Firebase for multiple client projects.
- Built responsive frontends using React.js, Tailwind CSS, HTML, and CSS, ensuring seamless cross-device user experiences.
- Maintained version control and collaborative workflows using GitHub, consistently delivering projects on time.

PROJECTS

HOMEDINE – ECO-FRIENDLY KITCHENWARE E-COMMERCE

homedineecommerce.netlify.app

A fully functional e-commerce platform for premium eco-friendly kitchenware, featuring product listings, cart management, and a clean shopping experience.

- Developed a responsive storefront with product browsing, search, and cart functionality using React.js and Tailwind CSS.
- Integrated backend services for product management and order handling, deployed on Netlify for continuous delivery.
- Applied custom graphic design using Adobe Illustrator and Photoshop for product visuals and branding assets.

CODEPOLARITY – ALL-IN-ONE CODING LEARNING PLATFORM

codepolarity.me

A comprehensive coding platform featuring an online code editor, 20+ programming cheatsheets, a typing tutor, video courses, and AI assistance — all free and accessible without sign-up.

- Built a professional-grade browser-based code editor with syntax highlighting, autocomplete, and live execution support for 20+ languages.
- Created 20+ cheatsheets covering Python, JavaScript, React, CSS, Git, and more, along with a specialized coding typing tutor with progress tracking.
- Deployed and maintained the platform using Firebase and Node.js backend, with user auth and profile management features.

SAMARTH CHAUHAN – ABSTRACT ART PORTFOLIO | Freelance

samarthchauhan-portfolio-28903.firebaseio.com

Designed and developed a visually rich portfolio website for an abstract artist, showcasing their artwork, biography, services, and exhibition history in an elegant, gallery-style layout.

- Built a multi-page site with dedicated sections for portfolio gallery, artist bio, services (commissions, consultations), and a contact form.
- Deployed on Firebase Hosting with optimized image loading for a smooth, gallery-quality browsing experience.
- Leveraged Adobe Illustrator and Photoshop skills to refine visual assets and maintain a cohesive aesthetic aligned with the client's artistic brand.

LANGUAGES

Hindi (Native) | English (Intermediate) | Japanese (Beginner – JLPT N5 Level)
